8. EXPOSURE CONTROLS/PERSONAL PROTECTION

| ENGINEERING CONTROL MEASURES | Use with adequate ventilation. Keep containers closed. Safety shower and eyewash fountain should be within direct access. |
|----------------------------------|---|
| RESPIRATORY PROTECTION | Use a NIOSH-approved dust and mist respirator where spray mist occurs. Observe Provincial regulations for respiratory use. |
| HAND PROTECTION | Full-length gloves should be worn during all handling operations. Neoprene gloves. |
| EYE PROTECTION | Chemical goggles should be worn during all handling operations to protect against splashing. |
| BODY PROTECTION | Discard contaminated protective equipment. If there is danger of splashing, wear overall or apron. |
| PROTECTION DURING APPLICATION | During application, adequate ventilation must be provided. Mix in a well-ventilated area. If ventilation is poor, wear respiratory protection.
